

# QTimer 2.0<sup>®</sup>

Shave 30 seconds off your drive-thru

**Timing is everything for QSRs.** QTimer 2.0<sup>®</sup> links multiple vehicle detection technologies with your POS sales data. Simple and fun, our technology motivates the crew, allowing you to focus on what matters the most; the customer.

**84%**

of customers say  
**SPEED OF SERVICE IS  
MOST IMPORTANT**  
to their drive-thru  
experience\*

\* Foodservice Results Drive-Thru study

## Redefine speed of service

QTimer shaves up to 30 seconds off your drive-thru operation by tracking real-time data using Drive Lane UI. Quickly identify bottlenecks and reallocate resources when they are needed to serve faster.

*Every 10 second reduction in average time equates to a 3.3% increase in vehicle count, resulting in a 4.4% increase in sales.*

## Supercharge crew motivation

Restaurants have an 8% decrease in OEPE when they use gamification. Turn measurable goals into exciting competitions with the EnGage application. Set custom challenges with specific benchmarks and award badges for achievements.

## Optimize performance

Gain an in-depth understanding of your drive-thru operations. ACRELEC QTimer<sup>®</sup> 2.0 comes with the powerful, cloud-based Qlik Business Intelligence Reporting, our highly interactive and visual data platform.

## Drive customer loyalty

Ensure every drive-thru guest is met with a seamless, positive experience that encourages future visits. Thoughtful UI displays safeguard real-time accuracy, making sure orders are delivered with speed to the right guest every time.

## ACRELEC's EnGage Gamifying the drive experience

The EnGage Performance Board turns measurable goals into friendly competitions between locations through a unique gamification feature, increasing crew motivation and investment in restaurant success.

### Key Features
